

DIEBOLD 3550 CASH-RECYCLE ATM

VERSATILE CASH MANAGEMENT WITH A COMPACT FOOTPRINT

For financial institutions, replenishing cash in ATMs can be costly. For consumers, it's an inconvenience when a transaction cannot be completed because the unit is unavailable due to depleted cash reserve. For this reason, financial institutions are looking to cash-recycling systems as a way to reduce the cost of cash management and deliver a reliable consumer experience.

The Diebold 3500 series of terminals offers consumer-driven speed and efficiency that both mature markets and developing markets demand. It provides configurable cash-dispense and recycle options that enable financial institutions to increase growth and customer retention, while minimizing total cost of ownership.

MAXIMUM FLEXIBILITY

The Diebold 3500 series is comprised of highly reliable, versatile cash recyclers designed to be easily configured to meet a market's specific needs.

- Provides configurable options that enable bulk-cash depositing, a combination of deposit and dispense, or full recycling
- Expands growth opportunities by facilitating footprint expansion with cash-recycling technology
- Improves operational efficiency with automated cash validation, denomination, counting and recirculating

IMPROVED TOTAL COST OF OWNERSHIP

With its customizable features, cash-management automation and improved reliability, the Diebold 3500 series is a sound, long-term investment.

- Decreases the frequency of costly cash-in-transit visits
- Reduces maintenance costs due to data analytics and individual module power control
- Maximizes uptime through module-driven reliability improvements

ENHANCED CUSTOMER SATISFACTION

The Diebold 3500 series emulates teller transactions by validating, denominating and counting deposited currency.

- Reduces time tellers spend processing routine transactions, enabling more focused and meaningful relationship building
- Allows 200-note transactions, enabling merchant customers to more efficiently conduct large transactions
- Passbook printer allows automation of booklet printing

We've got a solve for that.™

DIEBOLD 3500 SERIES FEATURES

ARCHITECTURE

- Highly reliable, market-proven ActivRecycle cash-recycling technology
- World-class note-identification technology
- Multiple currency support
- Fully RoHS compliant

CUSTOMER CONNECTIVITY

- 15" XGA color consumer display
